The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 2, the phrase "of the type" is indefinite since it broadens "ferrule" an indeterminate amount. On lines 3 and 4, "groove" should be changed to --grooves--.

Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

The above claims define over the prior art since the prior art fails to disclose or suggest a spacer in the form of a rectangular parallelepiped being placed between the pins or the spacer having a hardness equivalent to or higher than the hardness of the pins forming the fiber holes as set forth in the claims.
